

Supercharge your event networking with the

LEAD RETRIEVAL APP

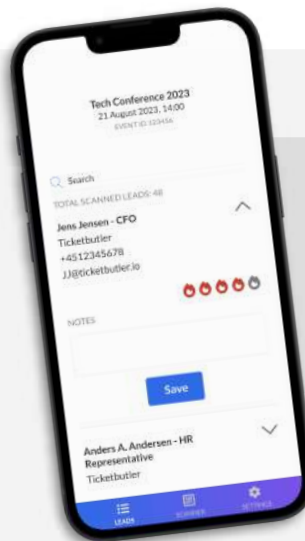

Get ready to revolutionize your event experience with the Ticketbutler Lead Retrieval App!

This game-changing app allows your exhibitors and guests to effortlessly scan the QR code on their name badges, instantly retrieving contact information. Seamlessly integrated with our state-of-the-art Ticketbutler name badge printer, this powerful combination will take your lead generation to the next level. Say goodbye to manual data collection and hello to streamlined networking opportunities. Try our Lead Retrieval App today and unlock the full potential of your event!

Scan

An exhibitor can scan name badge QR codes and collect attendees' personal information using the app.

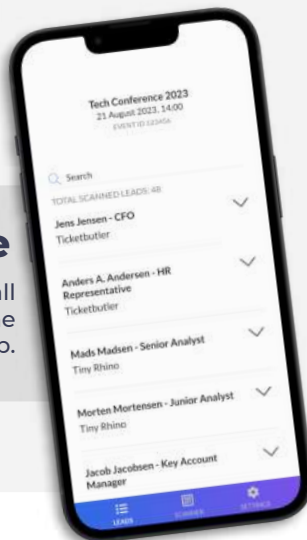

Note

After scanning an attendee badge you can add a note to the specific attendee and also rate how warm the lead is.

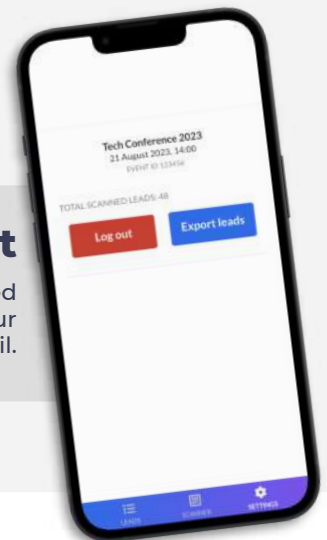

Browse

See and search for all scanned leads in the app.

Export

Easily export collected leads from the app to your email.
